Welcome to Ideal Construction Co. (WLL)

Ideal Construction Co (W.L.L.) established in 2012 is a prominent company in Qatar for construction and interior. The company is headed and managed by a professional and well experienced engineer in the field of construction and well versed with the changing trends & techniques in the industry. This company is specialized in all kinds of construction projects such as residential buildings, commercial buildings, Warehouses, Factories, Workshops, Schools, Labor accommodations, Oil tank Farms, Villas etc.

Our Team

Our team comprises of Engineers, Administrators, Foremen, skilled and unskilled workers. All are sufficiently qualified & experienced and ensure high productivity and outstanding performance. To strengthen our work force, we have fleet of modern construction machineries and equipments with quality technical support. The quality of work is regularly evaluated and improved to the satisfaction of our clients and consultants.

Interior Design

No matter the industry, the corporate houses always look for the wow factor when it comes to creating a space that feels and looks good to work in. Being one of the experienced hands in the region, We at ICC understand the importance of rather creating a design and corporate space that works for our clients rather than be satiated with its looks.

Civil Works

Ideal has been executing various civil projects in Qatar. The company has made an outstanding contribution to civil engineering projects around the country. Ideal undertake civil construction works of residential and commercial complexes, industrial buildings, camp constructions, to name a few. Works include bulk excavation, site preparation, concrete paving, foundation repair and pipelines and asphalt work. Be it project implementation from the scratch or maintenance/repair of existing projects, Ideal is abreast with the technical know-how and potential to deliver the right solutions.

Gypsum Partitions

Interiors need to evolve throughout their life to suit changing demands placed upon them. Interior designers have been using the Gypsum boards for partitioning, in interior walls and ceilings. Many properties both commercial and residential today use gypsum wall partitions rather than the traditional partitions to ensure they save time and cost

Electrical & Plumbing Works

The Electrical & Plumbing division (E&P) has been a forerunner in the field of E&P contracting in the Qatar. The Division offers a wide range of services such as design, supply and installation of Air conditioning, Electrical, Sanitary, Plumbing, Fire Protection, Elevators and BMS System etc. Fully computerized design facilities coupled with advanced technical and engineering skills, E&P have carried out environmental control for number of prestigious buildings both commercial and residential, universities, airports, communication and industrial projects. E&P has capacity and capability to handle projects of any magnitude and stand on commitments towards satisfying clients requirements.

Interlock Paving & Road Works

We are the well renowned service provider of Interlocking Tiles Road Work Services. These services are generally appreciated for their timely execution, client centric approach, hassle free management. Widely cherished for their quality attributes, these services are rendered by our highly skilled professionals as per the defined industry standards.

Joinery Works

ICC Joinery has been manufacturing an extensive range of quality wood based products for both the commercial and residential sectors. As a total joinery solutions provider, operating a heavily mechanized factory, we practice stringent quality measures ensuring the highest standard of quality and customer satisfaction. Unparalleled in the market, few companies can execute the full in house services ICC can provide.
